CERTIFIED FETI

SCIENCE-BASED TRAUMA INTERVIEWING

NOVEMBER 4-8, 2019

FORENSIC EXPERIENTIAL TRAUMA INTERVIEW TRAINING CERTIFICATION BY RUSSELL STRAND

"Certified FETI® is the founding and governing body of the official Forensic Experiential Trauma Interview, a science and practice-based interviewing methodology informed by the latest research on the neurobiology of trauma and memory.

The Forensic Experiential Trauma Interview (FETI®) provides interviewers with a science-informed interviewing framework that maximizes opportunities for information collection and accurately documents the participant's experience in a neutral, equitable, and fair manner."

OFFERED COURSES:

Introduction to the Forensic Experiential Trauma Interview – 2 day course

This course will be offered to anyone who is interested in attending. This does not offer a certification in FETI, but does fulfill a requirement for the Basic Level certification. The course is an important introduction to trauma interviewing and can be helpful in many different fields and incidents.

Practical Application of the Forensic Experiential Trauma Interview – 3 day course

This course will only be offered to investigators, as there are a limited number of spots in the class. The introductory course is a pre-requisite to this course and does not officially certify the participant in FETI, but is essential to the final steps of certification.

Russell Strand is an independent consultant, educator, and presenter. He is a retired U.S. Army CID Federal Special Agent and retired Chief of the Behavioral Sciences Education & Training Division, U.S. Army Military Police School with an excess of 40 years of law enforcement, investigative, and consultation experience.

FETI® is used by professionals who interview in diverse areas such as (but not limited to) law enforcement, higher education, government, criminal prosecution, advocacy, journalism, healthcare, human resources, and family services.

"The impact of Certified FETI is profound; it has transformed the way we interact with victims, witnesses, suspects, and our own staff. This interviewing method results in a depth of information that was previously unmined. Since implementing our FETI training, our officers have enhanced the quality of evidence in their investigations, but even greater than this, we are helping victims become whole again."

CHIEF CHARLIE DENNIS
HANOVER POLICE DEPARTMENT

"Understanding brain science is key. FETI training helps my officers make sense of the way victims and witnesses react to trauma. I believe FETI is essential for every member of service.

All NYPD Special Victims Division investigators are required to be trained in FETI before we allow them to interview any victim."

RETIRED DEPUTY CHIEF
MICHAEL OSGOOD
CITY OF NEW YORK
POLICE DEPARTMENT
